This lesson is a part of the Coral Reproduction unit, which explains different strategies that corals use to reproduce. Below is a summary of what is included in the entire unit.

**UNIT CONTENTS**

A. **Background Information**
   - Reproduction
   - Sexual Reproduction
   - Asexual Reproduction

B. **Lessons**
   - **Watch it! Birds and the Bees**
     - A worksheet to accompany the *Birds and the Bees* video
   - **Safety in Numbers**
     - A game of tag adapted to learn the advantages of mass spawning
   - **Comic Clones**
     - An activity to make a comic strip describing a form of asexual reproduction
   - **Read it! Rolling Stones**
     - A worksheet to accompany the *Rolling Stones* field blog

**STANDARDS**
- **CCSS**: RST.9-10.1, 2, 3, 4, 5, 6, 7, 8, 9, 10; RST.11-12.1, 2, 3, 4, 6, 10; SL.9-10.1, 6; SL.11-12.1, 6
- **NGSS**: HS-LS2-8

**ONLINE CONTENTS**
- Coral Reproduction Quiz
- *Corals: The Birds and the Bees* Video How do coral colonies ensure their own survival generation after generation? Corals reproduce sexually (mass spawning and brooding) and asexually (budding and fragmentation).
INSTRUCTIONS:
1. Read Rolling Stones, a blog from our Tuamotu, French Polynesia mission (http://www.lof.org/rolling-stones/).
2. While reading the blog, take notes and connect it to your prior learning. Note things that you agree or disagree with. There is a space, below, for this.
3. Next, document what you like and dislike about this blog in the space below. Be sure to pay attention to things like style and tone, along with the content and visual design. Be sure to explain what it is that you do or do not like about each element.
4. Answer the questions.

NOTES

LIKES

DISLIKES
1. Sometimes the central idea of a piece of writing and its purpose are not the same. What is the central idea of this blog (what is the whole blog discussing)? What is the end purpose of the blog (hint: check the title)?

2. What is the question about the Hao lagoon that the author is trying to answer?

3. What conclusion was made by the author? Cite specific textual evidence to support this.

4. Did the author fully support his claim? Explain why you think this.

5. *Synchronous spawning*, *brooders*, and *gemmae* are specific vocabulary for the topic of this blog. Define them below.
6. Write a sentence of your own creation that connects the three words from #5, above.

7. Is this blog a reliable source for scientific information? Why or why not?

8. Do you notice any bias in this writing? If so, what?

9. Describe three things that you learned while reading this blog entry (they do not have to relate to the central idea).

10. Construct a comment to post in response to this blog. Remember that a good comment makes connections, asks a question, or gives an opinion in a respectful manner. You might want to quote the part of the blog that you are specifically referring to. Don’t be afraid to disagree with another writer, but be sure to explain yourself and remain polite.
