For: Middle and high school students 11-19 years old

Prizes: Up to \$500

Cost to enter: Free

Deadline: March 1, 2027

Learn more & apply:
LOF.org/SWBChallenge

ABOUT THE CONTEST

The Science Without Borders® Challenge is an international art contest run by the Khaled bin Sultan Living Oceans Foundation that teaches students about critical ocean issues. This year, we invite students to create artwork showing how mariners can Navigate with Care to protect marine life, conserve fragile ecosystems, and keep people safe at sea.

HOW TO APPLY

STEP 1: Research this year's theme, "**Navigate with Care**" and learn what mariners can do to help protect themselves and life in the ocean.

STEP 2: Create a drawing, painting, or other 2D piece of artwork by hand that reflects this year's theme. The artwork will be judged on your creativity, artistry, and craftsmanship as well as its visual impact and your understanding of the theme.

STEP 3: Apply online at LOF.org/SWBChallenge! Upload a picture of your artwork along with two pictures of you creating the artwork, and a short description of how it relates to the theme. You will also need to provide contact information for a teacher and a parent or guardian (and get their permission if you're under 13). Don't wait until the last minute!

All entries must be received by March 1, 2027, to be eligible to win.
